XIC - A61K-031/44 ; C07D-295/10

AB - JP53040779 Optically active tolperisone is of formula (I). Optically active tolperisone acetylphenylglycine salt is also claimed.

- Tolperisone is prepd. by reacting dl-tolperisone with optically active acetylphenylglycine in a solvent, sepg. the resultant two diastereoisomers by utilisation of difference on solubility to the solvent, and recovering optically active tolperisone from the respective diastereoisomer.

IW - OPTICAL ACTIVE CENTRAL MUSCLE RELAX ANTITUSSIVE ANTI ASTHMA
COMPOSITION IMPROVE PERIPHERAL CIRCULATE

IKW - OPTICAL ACTIVE CENTRAL MUSCLE RELAX ANTITUSSIVE ANTI ASTHMA
COMPOSITION IMPROVE PERIPHERAL CIRCULATE

NC - 001

OPD - 1976-09-21

ORD - 1978-04-13

PAW - (NIPK) NIPPON KAYAKU KK

TI - Optically-active tolperisone - used in central muscle relaxant, antitussive and anti-asthmatic compsns., and for improving peripheral circulation
